I made this Exhaust Hose Mount for BambuLab P1S/X1C printers.

You don't want polluted air in your room, don't you?

Orientation

You can point the direction of the mount to **LEFT** or **RIGHT**.

Holes

6 holes for 4 M3 screws on the back of the printer.

4 holes for 10x3 magnets if you don't want screws.

Size

Height: 65mm

Pipe Diameter: 50mm

Printing advices

Enable Support

Enable brim: 5-10mm

Adjust printing speed: You can print faster if you want.

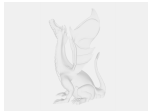

Material recommended: PLA, ABS, ASA and Nylon.

Share your reviews

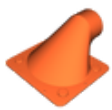

Leave comments if you like it, or if you want it to be improved.
