Summary

A frosted donut. Or just a donut. Or just the frosting. Or both seperately, you do you.

I made this mostly to get comfortable in blender, feel free to resize to your liking before printing. Other than that, it's a donut with frosting, I dunno what else to tell you. Paint the frosting to mimic any flavor you want? Just please do not attempt to eat :)

Edit: Uploaded the donut and frosting models separately. Why? Maybe you like options and want a plain donut one day and a frosted one the next.
