### Summary

When you get your new P1S you are given some basic pieces. Here you can store them with some good organization.

---

[3D Printers](#) > [Accessories](#)

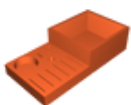

---

This is a basic print, so you can play around with the infill, but other than that you are good to print it. See the photos attached, I made this and so I decided to put another slot for a pair of tweezers. But you can leave it empty if you don't have any.
