### Summary

A drawer/cabinet pull handle with an ergonomic hand-hold

[Household](#) > [Other House Equipment](#)

This handle has a nice, positive undercut that makes it easy to grab. It also features a recessed top section, allowing for a printed adhesive label to be added to your drawer. It should print well in any regular PLA, with 4 perimeters and about 30% infill. Install these handles using 2x #8 pan head wood screws or similar.
