There are many game console controller models available. I wanted a horizontal stand that could fit easily into a drawer, but also fit multiple controllers.

I remixed [npiegdon](#)'s original controller stand using Fusion 360 to fit 3 controllers and it's working great!

Printed at 0.16mm layer height on my BambuLab P1P using

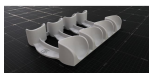

- PolyTerra Matte Cotton White PLA
- PolyTerra Matte Charcoal Black PLA
- Bambu Textured PEO build plate
