Summary

As seen in season 3. Someone from MMCC asked for one, so I gave it a shot.

So someone in the MMCC asked if anyone could CAD this from some shots from season 3, so I did.

With blasters, I like to cut them in half and print each side and then join them together.

I haven't printed this one, but I aimed to make it printable and simple, so break it down, print it out and see how you go.
