This is not my model.

I was looking for a decent model of a meerkat. This one is by far the most beautiful and I thought it deserves a re-upload on printables.

The model is based on the real animal in its natural form. The surface mimics fur.

I'd recommend to use the 3mf file, as I included the right amount of organic supports for mouth, hands and tail. Should be a really easy print.

Got a whole army these little critters by now ;-)
