Summary

Simple tray to allow residual moisture to drain out. For simple cups or bottles that can stand without rack support.

Simple tray to allow residual moisture to drain out. For simple cups or bottles that can stand without rack support. Ridges are rounded for easy cleaning if required. I wanted a simplistic design without clutter. Used marble PLA to match the dry kitchen counter top. Its 250 x 150 mm, variable layer height. Printed at slow speed, 0.2mm layer height, 0.4 nozzle, etc..
