Hello is welcome 🙌, before continuing make sure to put LIKE to give us a great hand is obviously a download

If you have a prusa mk3s+ or similar you can change color with the tool change in the settings of prusa slicer but first you have to set the extruders to 3 if you want 3 colors or 6 if you want to make different colors

of the balls: 1)

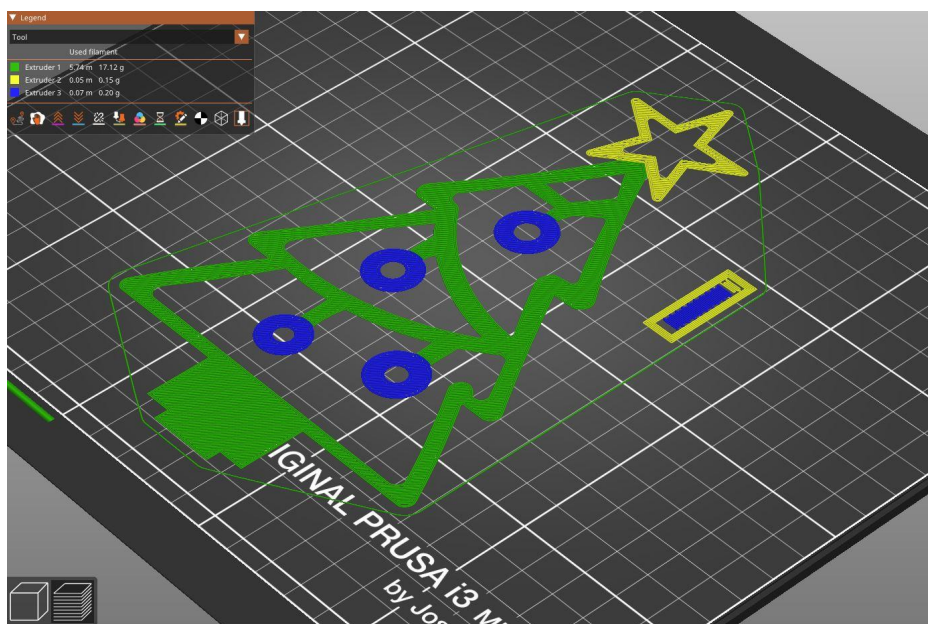

2)insert in the tool change the M600 command for the color change

3)the first layer should come out like this

4)You can also edit your base with any text thanks to

prusaslicer

If you are confused to find all our projects, don't worry, we have created some collections for you to visit all the projects in the following link.
