Summary

Raises and tilts a Square Reader forward, and has a slot for business cards or printed placards

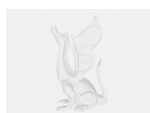

[Household](#) > [Office](#)

Tags: [creditcard](#) [cardreader](#) [square](#) [squaresreader](#)

A simple Square Reader holder that slightly raises and tilts the reader towards the front, with a slot on the rear side for a cable and a holder on top that can hold a business card or a 1 mm thick printed sign (as shown in the cover image).

This model doesn't require any particular material or printing settings, as long as it can manage the bridge over the cable port in the back.
