### Summary

Another basic dispenser this one I made for my Q-tips and slotted the back so I could load them easily.

[Household](#) > [Bathroom](#)

Tags: [organizer](#) [holder](#) [dispencer](#) [toilet](#) [bathroom](#) [tray](#)  
[organization](#) [qtip](#) [bathroomorganizer](#) [organisation](#)  
[bathroomaccessories](#) [qtipholder](#) [qtiptray](#) [qtipcup](#)

I printed this on a makergear m2, 2 walls top, bottom, and sides. 20% infill is fine but I used 40 to make it stronger infill rectilinear, with gyroid/grid pattern supports, and no brim. PLA, nozzle 220 bed 50.
