Summary

In Italy this hand sign is called “Mano Cornuta”. Most of italians have them either at home, at the entry, as jewelery

Printed with 0,2 layer height , using the "Bambu support PLA" as “tree-support”, so its not leaving any traces on the hand and easy to remove.

Adapted also the support layers etc. to fit best without touching the object.

I printed with 15% infill but 8 should be more than enough.
