[cableclip](#) [mic](#) [microphonemount](#) [microphonearm](#) [micarm](#)
[boomarm](#) [innogear](#)

This is a simple XLR Cable Clip specially designed for the [Microphone Arm from InnoGear](#).

This is the [XLR Cable](#) I am using. But I think it should fit for most of the XLR cables.

The extrusions of the arm are about 13x13mm and the XLR cable I use in diameter is about 6mm.

Print Settings:

printed with PETG

100% Infill (doesn't really matter)

2 Perimeters

0,4mm Nozzle

0,2mm Layer height (0,1mm for smoother radius around the corners)
