### Summary

An improved Pegboard Glove Clip model with resized hook and locking peg

[Hobby & Makers](#) > [Organizers](#)

Tags: [clip](#) [pegboard](#) [gloves](#) [pegboardholder](#) [pegboardclip](#)

I liked the idea of original Pegboard Glove Clip model, but the peg on it was too thick and required some cutting to make it fit. It also pivots and pulls away from the pegboard when you pull the clip out to slide your gloves in.

This version has a slimmer top hook, and locking bottom peg to keep it flush to the pegboard, and it's a little slimmer. Now it's easier to insert into the pegboard (though still snug), it stays put when you put your gloves in it, and because I moved the pegs to one side, it can be printed without supports.

Made for American pegboards with 1-inch spacing and 1/4 -inch holes.
