## Summary

A simple remix of the excellent work of <https://www.printables.com/@FabianVeile>, check him out for genius printables!

My wife and I were in love with Fabian's tiny board games, but she's always been more of a checkers fan and there wasn't anything around that could compare, so I whipped this up from Fabian's chess board just for her because the license on the model didn't allow for remixing. After printing it, I sent it to him as a thank you and requested that he put it up on his account - SURPRISE! He changed the license and told me I could put it up myself, HUGE thanks to Fabian from checkers fans everywhere :P

It's in the summary but I'll say it here too - print the expansion card if you've already printed the brilliant chess board and you'll have enough pieces to play checkers! I recommend an altoids tin to contain them after the pieces have been removed, or you can print a credit card box!
