### Summary

This is just a simple model you can print to slide under the windshield wiper of your fellow WRXs.

I modeled a EJ head gasket that you can print so you can slide it under WRX's wiperblades. The fullsize models are a 1:1 scale of an actual EJ head gasket. The half size ones are 1:2 scale. The models labeled "logo" have the r/WRX subreddit name stamped into the model.

I find the half size models better to print and hand out. You can fit more than just one model on your bed, and i feel like they are less of a nuisance leaving a smaller gasket on someones car vs a overly large gasket. Feel free to scale them down even smaller, but you might lose the logo resolution if you do.
