Summary

Glowing Orb. Good for pondering or Taylor Swift "Willow" cosplay.

Print out of clear or translucent filament. Add battery powered fairy lights to illuminate. Print 2 halves and one lock ring. They should click together with a minimum amount of effort.

I printed all parts with a brim and tree supports. The supports left a messy surface on the hemispheres, but you can't see it from the outside. I used variable layer size ranging from 0.25 to 0.1.
