updated 7. 12. 2023 | published 7. 12. 2023

Summary

A sleeve to prevent juice from shooting out of an apple juice box.

[Household](#) > [Kitchen](#)

My child loves apple juice but doesn't have the fine motor skills to avoid squeezing too hard and shooting apple juice out of the straw.

Simply slide the apple juice box into the sleeve and juice will no longer shoot out of the straw.
