I made this Vase as a Valentines gift idea, you can print both parts separately with Zero infill and Supports, so can choose different colours for each part if you like.

you could maybe keep one part and give the other to your valentine, Corny I know but if you cant be Corny at Valentines when can you.

I printed mine at 0.2mm layer heights in Fillamentum Signal Red and Luminous Red

Happy Printing and Happy Valentines

Thanks

Bugman
