updated 7. 12. 2023 | published 7. 12. 2023

### Summary

Added a CR Touch bracket to the dual fan Mini Satsana with Microsoft 3D Builder. Should work with Ender3 , Ender5, CR-10

---

[3D Printers](#) > [Creality Parts & Upgrades](#)

---

Added a CR Touch bracket to the dual fan Mini Satsana with Microsoft 3D Builder.

I didn't make any changes to the probe offset.

Place support blockers to keep infill out of the fan ducts if your slicer puts them inside the ducts

Original fan mount: <https://www.thingiverse.com/thing:5139196>

Original CR Touch Bracket: <https://www.thingiverse.com/thing:5923727>

Feel free to make improvements to the design.
