Summary

An easy to print sliding box

[Hobby & Makers](#) > [Organizers](#)

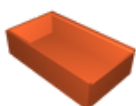

Tags: [box](#) [lid](#) [slidinglidbox](#)

An easy to print sliding box.

The size of this model is 73x135mm. If you want to edit the size of the box you can find the [Onshape file here](#).

Printed with FormFutura Red PLA on the pictures. I used adaptive layer heights from 0.15mm to 0.22mm. It allow a better precision on the sliding slot but fast printing otherwise. You can just do 0.15mm everywhere if needed.
