**Realistic replica of iconic submarine, biggest nuclear submarine of cold war - Skipjack class.**

- realistic look - **OPTIMIZED FOR 3D PRINTING - length 40cm**
- **divided into parts for easy printing** on classic size printers
- stand included

Needed:

- red and grey filament, optionally black (also yellow look good instead of red, but red is the most realistic)
- glue (for example: cyanoacrylate adhesive)

Instructions:

- print out all provided parts (choose filament by file name) - check printing setting below
- glue parts together intuitively (check build scheme - last photo)
- place is on stand
