### Female Body for Prusa balance game

😊 very pleasant in the hand by the game

#### Recommendations

- height 0.1 mm is better (smoother) than 0.2 mm

#### ↕ Two print sizes:

- **normal** - low figure size (print with at least 50% infill)
- **larger base** - for better grip, more weight, more leverage

#### Two printing options:

## One filament

- the whole figure + the base will be printed in one colour

## More filaments (colors)

- using the slicer/M600 or otherwise you can print the base in one color and the figure in another color
- who has MMU/AMS/... it's even better
