Summary

small adaptor for yoru kailh choc switches to fit other keycaps

[Gadgets](#) > [Computers](#)

printed with bambu p1s - 0.2 strength preset with 100% infill - no supports
two flanges on the side to help removing adaptor from keycap

100% infill is recommended so it doesnt break
you MAY need supports depending on how your printer is with small cantilever overhangs, but i didn't find it necessary as i made the tolerances big enough to accomadate for at least my printer
