Here is my 4 colour Candy Cane Christmas tree, you will need to print all the parts once, I would advise re-naming the files to the colours you want to help keep track of where you are up to once you have sliced them.

I printed mine in Fillamentum Pearl Violet, Gold Happens and Everybody's Magenta

and Polyalchemy Silver

I hope you enjoy the files and Merry Christmas

Thanks

Print instructions

Resolution: 0.15mm

Infill: 10%

Notes:

I printed this one with 10% infill by mistake (Woops), though i think it should print just fine with Zero Infill.

I also used a Brim to help secure the parts to the bed as the footprint is rather small.
