Small capacitor case for two 10000uF/25V capacitors.

I am using it for testing purposes (filtering and keep some settings of radios).

Maybe it will come handy to someone as well.

It is for these capacitors:

25V10000UF 18X35MM

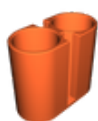

Easy print, no support needed.

It is holding together by two small screws.

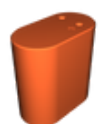

I have added some color strip just for design.
