Summary

A Dock for the Samsung T7 Shield external SSD. It is designed to mount to an O11 Dynamic Evo

[Gadgets](#) > [Computers](#)

Tags: [samsung](#)

It mounts to the Hexagonal Mesh at the Back. I fitted it to the removable hard drive bay cover, but im pretty sure it fits everywhere. It is designed to work with the included USB Type C cable.

Assembly:

Insert the cable from the bottom a little too far, plug in the SSD and push it down until it bottoms out, screw in the strain relief bracket.

Required hardware:

- 6 * M3x4mm heatset inserts
- 6 * M3x8mm screws
- 4 * M3 washers
