Summary

I liked the original scene so much but thought it was missing an Arc to place the star of Bethlehem on. So here it is.

The nativity scene from 92212-nativity-scene-belen was one of the first prints I made on my Prusa Mini+. I wanted to have something to place the star of Bethlehem on and tried creating something in PrusaSlicer that worked but wasn't really nice. For this year I decided to use my Fusion360 skills and create an Arc that fits the style of the Nativity Scene and add it as a model for others to enjoy. So here it is.

Please see <https://www.printables.com/model/92212-nativity-scene-belen> for the original figures if you need them. This is just the arc.
