Here is my 3 colour Candy Cane Christmas tree, you will need to print all the parts once, I would advise re-naming the files to the colours you want to help keep track of where you are up to once you have sliced them.

I printed mine in Fillamentum

Grass Green, Gold Happens and Everybody's Magenta

I hope you enjoy the files and

Merry Christmas

Thanks

Bugman

Print instructions

Printer: CR-10

Rafts: No

Supports: No

Resolution: 0.15

Infill: 0%

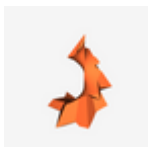

Notes:

I used a little brim to help secure the parts as the foot print is only small. this is optional depending how confident you are with your bed adhesion :-)

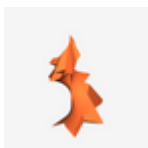

Model files
