Tags: [ikea](#) [curtain](#) [riser](#) [riktig](#)

Introducing the Ikea RIKTIG "Riser", a minimalist yet highly functional 3D model designed to give your curtains a slight elevation for both aesthetic and practical benefits. With an easy-to-install feature, this riser lifts your curtains off the ground by a few centimeters, aiding in better airflow, preventing wear and tear, and keeping the hems pristine. Ideal for any room seeking a polished look, this riser complements your decor without drawing attention away from your curtains' design. :P

Features:

- Easy to print and install
- Compatible with Ikea RIKTIG curtain hooks
- Slightly elevates curtains to prevent wear and maintain cleanliness

Installation Guide:

1. Print the riser using the recommended settings for your 3D printer.
2. Slide the riser onto the Ikea RIKTIG curtain hook before attaching the curtain.

3. Hang your curtains as normal, and enjoy the new elevated position.

Print Instructions

- Adjust the part height to fit your needs (25mm default)
- 0.28mm layer height
- No brims or support needed
- Optimal for 0.4mm nozzle
