### Summary

A robust capo for any guitar.

---

[Hobby & Makers](#) > [Music](#)

---

Required components : - 3 M5 Nuts

3 M5 Screws ( 1 preferably at least 4cm long, 1 with a max length of approx 4cm, and another one with at least 3cm in length)

Before printing make sure to add stopping points to add the nut in the guitar capo hand body.

Note: make sure the guitar capo hand is in a position where you can easily put the nut in.

Note 2: additional foam padding from packages or electrical tape can be added to avoid scratching the guitar if too much pressure is applied.
