I used Blender to flatten the top of the hat and the bottom of the snowman for printing. Found the curve on each caused the model to warp when printing.

This will be used as the original author intended as gift boxes for cash for the kids

supports are needed for the snowman's nose and scarf, as well as the brim of the hat when printing.

I printed these at 60% with 20% infill.

### Print Settings

#### Printer Brand:

Prusa

**Printer:**

I3 MK3S

**Rafts:**

No

**Supports:**

Yes

**Resolution:**

0.15

**Infill:**
