2D Christmas Bauble

THIS IS A 2D BAUBLE. Check my page for 3d version

Designed for laser cutting only

Feel free to use any material you like

Scale down and it makes a nice necklace or similar

I have posted it in .step and .dxf file types. If there are any you would like to see ask in comments.

After cutting, brush away soot from the edges and sand with 180-400 grit sandpaper and tread a piece of string through the hole at the top.

Designed in fusion 360
