These are the files for my Candy Cane Christmas Tree,

Version 1 - this one has a Larger Gap between the 2 sections. meaning that it can be printed with Larger Layer Heights, and when printed at 0.2mm Layer Heights can be dropped together

Version 2 - this one is if you are looking for a Tighter Fit, I have successfully Printed this at 70% Scale with 0.2mm Layer heights and the 2 parts can still be nicely pushed together.

Both Versions can be printed with Zero Infill and with No Supports

Enjoy Playing with these Files

Merry Christmas

Thanks

Bugman
