Summary

A replacement foot for a Turkey/Roast cutting board.

It's unlikely anyone else would ever need this, but just in case. This Thanksgiving I was transporting my cutting board and the foot fell out never to be found again. Through some quick measurements and some OnShape adjustments I was able to get a new one produced quickly. Hope this helps someone.

Flexible on how to print, but .24, 3 walls, 4 top and bottom layers and 6% infill worked great for me.
