### Summary

Mount Tile Mate underneath the water bottle cage.

[Sports & Outdoor](#) > [Outdoor Sports](#)

Tags: [tile](#) [bikemount](#) [bike](#) [antitheft](#) [tilemate](#)

Since Tile has an anti-theft mode, it's possible to use this to find a stolen bike without tipping off the thief. This allows you to easily and discretely mount a Tile Mate underneath the water bottle cage. In your Tile app, you can look under your profile for anti-theft mode which requires identity verification with Tile.
