Create 5 unique snowflake design stocking holders in unlimited colors with this model package. Bonus: with a little felt, the snowflakes also make lovely holiday coasters.

Instructions:

Just print your snowflake and whichever hook you prefer and glue them together!

The Models:

- 5 snowflake decorative pieces
- 2 types of stocking hooks
 - One designed to fit over fireplace screen edges
 - One designed for a medium-sized **3M Command Velcro Strip**.

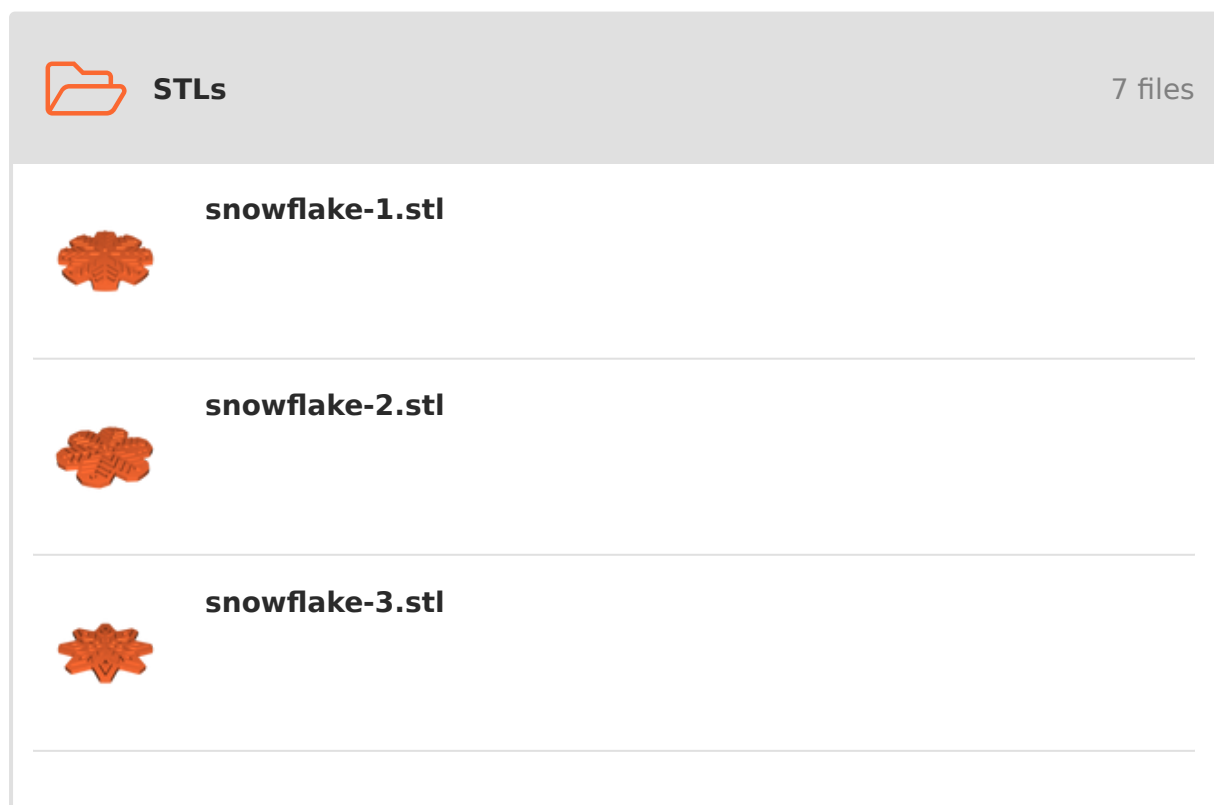

The Files:

- Properly-oriented STLs of each part
- .3MF files of each part
- Gcode Exports of each part (with pre-inserted filament change to make these 2-color)

Printing Notes:

- All the snowflake heights match, so you can print multiple snowflakes on the same plate and your filament change will work the same for all. I added an octagram spial top infill pattern to mine, which looks nice on the snowflakes.
- Mine are printed in PETG, but they should work fine in your fav. filament.
- The hooks are printed with 4 walls for extra strength.
