Summary

Inspired by the works of <https://www.printables.com/@FabianVeile>, this is my original work to bring games to the prints!

The classic game, but teeny tiny! Made as a gift for friends this holiday season, this is the perfect addition to any desert island game set in a case! Use the included beads, or use any beads you have around that are 2.7mm in diameter or smaller!

If you do use the included beads, cut them all out with the card face down and flat on a hard surface. It's very easy to shoot one into the abyss, especially when you're trying to set up the board while you cut :P I also recommend you keep a bit of a tab on each, and have one player play theirs upside down and the other play theirs sideways. (unless your print quality is much higher than mine, then just have one player upside-down and one right-side up!)

For a more functional experience, scale the model up or get yourself some tweezers :P
