Spool adapter for spools with a larger hole (Sunlu, etc) than the AMS Lite spool holder.

I tried many adapters, most of which I didn't like. I needed one for the super large hole spools as well as the slightly to big. This works as the rolls can not fall off the holder.

2 files. 1 has nipples for extra grip. the other does not.

Please "Like", review and upload make.

I spend a lot of time designing and allow it all to be used for free (including commercially).

If you'd like to help me out, below are the possible ways. Thank you in advance!
