Summary

Make your very own Lithophane Snow Globe Ornaments!

[Art & Design](#) > [Other Art & Designs](#)

You will need to use the same lithophane setting as seen in the photos, BUT the picture height and width may need to be adjusted based on your photo's size.

In addition to the 3d printed parts, you will also need...

1. String - for hanging the ornament
2. Glue - for attaching globe to base
3. Tea Light - to make it glow

<https://lithophanemaker.com/Lithophane%20Sphere.html#processing>

I used the Lanker (Cool White) tea lights (Link below). Feel free to use another brand. I'm not affiliated with this brand.
