Summary

Decora US light switch plate with a skier silhouette.

[Art & Design](#) > [Wall-mounted](#)

Tags: [wintersports](#) [ski](#) [wallart](#)

No more boring light switch plates! A great gift to a skier, this plate is always a welcome surprise to see on a wall.

To install, simply unscrew the existing cover and reuse the screws to put the improved plate on.

You can find the traditional blank light switch [here](#), and the decora one [here](#).

[Skier image credit](#)

Note that the ski tips and pole tips may rise off the wall a bit, even when the print is flat. This is to be expected, but shouldn't be an issue.

PRINT SETTINGS:

- No supports needed.
- 15% (or standard) infill.

- I would recommend printing in a color other than white, so it doesn't blend in.
