Summary

Remix of the original bin that fits the Preciva Ferrule Crimper

This previous version did not fit my Preciva brand tool so I modified the original model to fit the plastic handle variations of the Preciva branded ferrule crimper. My file is pretty spot on to the dimensions so it isn't the easiest to remove so it may need additional tolerances or just a shallower depth for easier removal so I added the STEP file if you want to mess around with it even more to your liking.
