Summary

Do you want a better way to hang your ties and belts? Display them in your closet instead in a compact space!

Tags: [display](#) [hanger](#) [tie](#) [belt](#) [closet](#) [rack](#)

Show off your ties, and see how they look before putting them on! This tie rack doesn't try to jam in as many ties as possible, but instead allows you to get a better view of your ties, and even display your favorites, with the added benefit of simulating how the displayed ties will look when tied. And if you don't care to display the ties, you still get to see more of each tie due to the extra spacing in this tie rack. But that's not all! You can also hang just as many belts from this rack as well.

Features:

- Fits in your closet like any hanger
- Display or just hang your ties while getting a better view of all of them
- Hang your belts alongside your ties
- Rounded edges to avoid any damage to your ties
- When wrapping a tie around the body, a small ledge helps keep your tie from sagging
