Tags: [dinrail](#) [zimaboard](#)

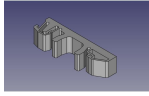

Basic remix of the popular DIN rail clip (made by marauder156 on thingiverse) to mount the ZimaBoard.

Works with original ZimaBoard **M3 x 12mm** screws if you remove the bottom plate.

Otherwise you'll need **M3 x 14-16mm** screws if you plan on keeping the bottom plate.

I also recommend printing with **PETG**, with at least **4 wall loops** or **100% infill**.

This remix is based on

DIN rail clip basic module for own modification
