### Summary

All the printable parts for the MK4/MK3.9 Upgrade, laid out for the Prusa Mini.

Tags: [upgrade](#) [prusai3mk3](#) [prusai3mk4](#)

This is for those who either did not read the instructions and started disassembling their MK3/S before printing out the parts, or if for some reason would prefer to have these printed on the MINI.

Here are all printable parts for the MK4/MK3.9 upgrades, laid out for the Prusa MINI. Respecting all orientations as in the GCODEs provided at <https://www.printables.com/model/451501-mk4-printable-parts/files>. For the most part the layout/bed placement is also replicated. I have printed all these parts on the Prusa MINI with the textured sheet.

These are not my files, simply replicating the grouping and layout as with the GCODEs provided for the MK3S - would have been nice if the Prusa team provided the 3MF files themselves so that users could customize the prints before generating GCODE.
