Summary

Red Bull storage for normal german fridges

[Household](#) > [Kitchen](#)

Tags: [can](#) [fridge](#) [storage](#) [redbull](#)

Dispenser for Red Bull cans. It is not so long as many others to fit in normal fridges.

To assable it you need 8 M3x40mm screws.

Everything fits onto a MK3/MK4 bed, also you can swap the filament to get Red Bull on the lower bar in a different color

Update 24.04.2024: As suggested I modified the back of the dispenser, so no can should be able to roll over.
