**Create your BaBo organizer! A system created to store them all!**

### Description:

This is the **BaBo insert benchy**. This can hold a benchy and is a homage to the 3D printing gods. xD Some of you may think it's not as useful as other inserts in the BaBo system. But this is more about something emotional. I still have the very first benchy. This was my first print ever and I keep it as a good luck charm and wanted a place for it in my BaBo.

BaBo organizer is a stationary, very flexible system to store your tools, spare parts and even printing plates. The design is based on the iconic look of the Bambu Lab X1 printer.

**Join my club to expand this system and get access to exclusive modules.BaBo collection**

### **Printing:**

Layer height: **0.2**

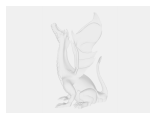

Supports: **No**

Brim: **No**

Material: **all**

If you like this model, please throw me a like. Designing the models is time, filament and coffee consuming. **If you want to support my work by me a coffee (PayPal).** Thanks!
