Summary

Riser Feet for UniFi Dream Machine Pro (double)

[Hobby & Makers](#) > [Electronics](#)

Remixed the original model to support another device with same hole locations on top (in my case a USW 16 PoE).

Like the original model, the back feet are just sitting there. You could remix the model and add a few mm's more space to add anti-slip material.

This remix is based on

UniFi Dream Machine Pro Riser Base
