Summary

Voronoi Pearl Light Lamp No. 1 for LED-Spots or LED tealight candle
Reupload from Thingiverse

[Household](#) > [Home Decor](#)

This is a reupload of a beautiful model from Thingiverse. Created by [graph](#).

Small lamp > big impact! This Voronoi Pearl Light Lamp is a beautiful decoration and lamp. Through the voronoi-parts, the light casts a beautiful light and shadow effect. The Voronoi Pearl Lamp looks so at day and night very nice and is therefore ideally suited as a decoration.

Original size: Ca. 10.4 x 10.4 x 6.8 cm

The Lamp is composed of two parts (shells) which are set on each other. Simply inserting an LED tea light candle or a other LED-light in the inside of the bottom part.

As lighting for example the cheapest LED spot of IKEA ("LEDBERG" LED spot) was used and the light is impressive (photos).

Important: Please use only LED lights. Do not use real tea lights!
