I knocked up this quick print knife handle and tip to add an extra scare to my pumpkin this Halloween.
then I decided to share as there seemed not to be anything like in on here.
I designed it in Fusion360 flat on the bed so to print fat and with no supports.
it came off my CR-10 with a 0.6mm nozzle in just over 1.5 hours.

hope it helps some last min pumpkin ideas.

Happy Hallownen

Thanks
